

Alejandro Keegan

Lead Developer · Ecommerce Technical Lead

Open to full-time and contract roles · currently active across multiple client and studio projects

Bali, Indonesia · alejandrokeegandev@gmail.com · linkedin.com/in/alejandro-keegan

Summary

Lead developer building Shopify stores, from custom themes to headless Next.js storefronts. I lead a four-developer team, review every build before it ships, and still write code every day. I've delivered 20+ stores across wellness, supplements, skincare, jewellery and consumer-product brands.

Experience

Lead Developer, Jigsaw Studio

Aug 2025 – Present

- Lead ecommerce development across Shopify and headless builds; own the architecture and review every release.
- Rebuilt the team's process around reusable sections, so a complete store ships in about three days once the design is ready.
- Lead client communication from kickoff to launch, keeping clients closely updated at every stage of the build.
- Wrote the architecture documentation the team builds to, and set the code-review standards.
- Mentor the junior developers and take on the headless work that needs senior judgement.

SELECTED · HEADLESS COMMERCE — Built headless Shopify storefronts on Next.js 15 and React 19, connected through the Storefront API and GraphQL, with Tailwind and deployment on Vercel.

SELECTED · CHECKOUT EXTENSIBILITY — Migrated a client store from checkout.liquid to Shopify's checkout extensibility ahead of the platform deadline, rebuilding the custom checkout as extensions and fixing a third-party affiliate-tracking dependency.

SELECTED · MIGRATIONS & APPS — Migrated existing sites onto Shopify, and built custom apps to extend and automate store functionality.

Frontend Developer, Larsson & Jennings (Contract)

Oct 2024 – Present

Front-end and UX work on the Shopify store of an international watch brand: custom functionality, performance, and ongoing improvements.

Founder & Lead Developer, A&A STUDIOS

Sep 2024 – Present

Boutique studio delivering fast, conversion-focused Shopify stores: custom development, integrations, automation and optimisation.

Tutor, DCI Digital Career Institute

Mar 2023 – Mar 2024

Helped software-engineering students with hands-on development, debugging and problem solving.

Frontend Web Developer, Media Concept GmbH

Dec 2021 – Feb 2023

Built responsive websites for clients in the medical sector, from front-end implementation through to client support.
